About us....

NB LIGHTING – NIKOLOPOULOS BROS was founded in 1958. Since then, the company has been producing and merchandising outdoor lighting fittings and is one of the oldest producers of lighting products in Greece. We count several loyal wholesale clients: electrical equipment stores and lighting stores, within Greece, Western Europe and Middle East, constantly gaining their preference and satisfaction. With consistency and responsibility towards our customers and consumers we give solutions to the lighting needs of private and professional sites by offering immediate services with quality and long-lasting products.

The last few years the company has succeeded in updating technology equipment and manufacturing processes, by purchasing new machinery and applying advanced production methods. The integrated production unit of our factory is able to produce customised products, in order to serve even the most specialized customer request. **NB LIGHTING** is constantly growing its product range with new models. We advance by studying and analyzing market needs and based on the know-how and experience we have acquired during our long time in the lighting business.

Λίγα λόγια για εμάς....

Η NB LIGHTING – ΑΦΟΙ ΝΙΚΟΛΟΠΟΥΛΟΙ ιδρύθηκε το 1958.

Ασχολείται με την παραγωγή και εμπορία φωτιστικών σωμάτων για εξωτερικούς χώρους και αποτελεί μία από τις πρώτες εταιρείες παραγωγής φωτιστικών στην Ελλάδα. Ευρέως γνωστή στο χώρο του φωτισμού-ηλεκτρολογικού υλικού, η εταιρεία προμηθεύει τα προϊόντα της σε καταστήματα ηλεκτρολογικού υλικού και φωτισμού σε όλη την Ελλάδα και σε χώρες του εξωτερικού Δυτική Ευρώπη, Μέση Ανατολή. Με συνέπεια και ευθύνη προς τους συνεργάτες μας και τους καταναλωτές, προσφέρουμε άμεση εξυπηρέτηση σε προϊόντα ποιότητας και αντοχής, δίνοντας λύσεις στις ανάγκες φωτισμού τόσο ιδιωτικών όσο και επαγγελματικών χώρων.

Τα τελευταία χρόνια η εταιρεία έχει κατορθώσει τον εκσυγχρονισμό του εξοπλισμού και των διαδικασιών παραγωγής, αποκτώντας νέα μηχανήματα και εφαρμόζοντας προηγμένες μεθόδους παραγωγής. Η άρτια γραμμή παραγωγής του εργοστασίου μας, επιτρέπει να υλοποιούμε ειδικές κατασκευές προκειμένου να εξυπηρετήσουμε και τις πιο εξειδικευμένες απαιτήσεις των πελατών μας. Μακροπρόθεσμα και σε μόνιμη βάση, η εταιρεία διευρύνει τον κατάλογο των προϊόντων της. Προχωράμε μελετώντας και αναλύοντας τις ανάγκες της αγοράς και βασιζόμενοι στην τεχνογνωσία που έχουμε αποκτήσει κατά τη μακρόχρονη πορεία μας στο χώρο.

CE Certification

CE is the compulsory mark for the free trade of all products within the European Community. It signifies the declaration of the manufacturer that the product is in accordance with directives of EU and therefore manufactured and tested in compliance with the relevant standards and rules (Safety and EMC compatibility). NB Lighting carries out quality controls and tests during all stages of production, but also sends product samples for trials and further testing to accredited testing bodies and receives detailed test reports and CE certificates for its products.

VERIFICATION OF CONFORMITY

VERIFICATION NUMBER : 400365
DATE OF ISSUE : JULY 30, 2014
VALID UP TO : JULY 29, 2018
ISSUED TO : ΑΡΧΗ ΜΥΚΟΛΟΠΟΛΙ ΟΕ, 89 ΚΟΛΟΚΟΤΡΟΝΙ ΣΤΡ.,
17342, ΑΡΧΥΚΟΠΟΛΙ, ΑΘΗΝΑ, GREECE
TEST ITEM : OUTDOOR LIGHTING LUMINAIRE (PLASTIC)
TRADEMARK : NB LIGHTING
TYPE/MODEL : PRISMA 34
MANUFACTURER : ΑΡΧΗ ΜΥΚΟΛΟΠΟΛΙ ΟΕ
APPLICABLE DIRECTIVE : LVD 2004/95/EC
APPLICABLE STANDARDS : EN 60598-1:2008 +A1:2009, IEC 60598-1:2008,
EN 60598-2-1:1989, IEC 60598-2-1:1979+A1:1987

STATEMENT : THE TEST ITEM COMPLIES WITH THE REQUIREMENTS OF THE ABOVE
MENTIONED APPLICABLE STANDARDS.

GENERAL REMARKS:
- The test results apply only to the particular sample, for which the HEEQA's test report S/N 504252-E dated July 30, 2014 was issued.
- This verification must be read in conjunction with the above mentioned test report.
- After preparation of the necessary technical documentation as well as the declaration of conformity, the CE marking shown below can be affixed on these products.
- This verification is based on a single evaluation of the above mentioned product. It is therefore essential for the manufacturer to ensure that the quality of his production is always in accordance with the applicable standards.
- Copy of this certificate is submitted to the Ministry of Development and Competitiveness of Greece.

Πιστοποίηση CE

Το σήμα CE που τοποθετείται υποχρεωτικά πάνω σε όλα τα προϊόντα δηλώνει την ελεύθερη διακίνηση προϊόντων μέσα στην Ευρωπαϊκή Κοινότητα. Σηματοδοτεί δε την δήλωση του κατασκευαστή ότι το προϊόν είναι σύμφωνο με τις Ευρωπαϊκές Οδηγίες και επομένως κατασκευάζεται και ελέγχεται με βάση τους σχετικούς κανονισμούς και πρότυπα (Ασφάλειας και Ηλεκτρομαγνητικής Συμβατότητας). Η εταιρεία NB Lighting διενεργεί ελέγχους και δοκιμές σε όλα τα στάδια της παραγωγής και συμπληρωματικά αποστέλλει δείγματα προϊόντων της για περαιτέρω δοκιμές και έλεγχο σε διαπιστευμένα κέντρα ελέγχου ποιότητας προκειμένου να παραλάβει αναλυτικές αναφορές δοκιμών (test reports) και πιστοποιητικά CE για τα προϊόντα της.

ISO Certification – Global Quality Assured

Since 2013, NB Lighting – NIKOLOPOULOS BROS has been certified with ISO 9001, after being accredited to be in compliance with the relevant standards by an inspection body (certification company certified by the Hellenic Accreditation System - ESYD, member of International Accreditation Forum - IAF). This certification covers the fields of Design, Production, Trading and After Sales Support of electrical lighting equipment and assures all NB Lighting products undergo the precise procedures and controls as stated in the company's Quality Management Manual and comply with ISO 9001 standards. Company's Quality Policy aims to fully satisfy customers' quality requirements, needs and expectations. ISO 9001 certification, qualifies NB lighting as a reliable partner.

Πιστοποίηση ISO – Παγκόσμια Διασφάλιση Ποιότητας

Από το 2013, η NB Lighting – ΑΦΟΙ ΝΙΚΟΛΟΠΟΥΛΟΙ είναι διαπιστευμένη κατά ISO 9001, η λειτουργία της οποίας έχει πιστοποιηθεί ότι συμμορφώνεται με τα σχετικά Πρότυπα από ανεξάρτητη εταιρεία ελέγχων αξιολογήσεων και πιστοποίησης, (πιστοποιημένη από το Εθνικό Σύστημα Διαπίστευσης – ΕΣΥΔ, μέλος του Διεθνούς Φόρουμ Διαπίστευσης – IAF).

Η πιστοποίηση καλύπτει τους τομείς του Σχεδιασμού, Παραγωγής, Εμπορίας και Υπηρεσιών Εξυπηρέτησης Πελατών μετά την πώληση, για ηλεκτρικά φωτιστικά και βεβαιώνει ότι όλα τα φωτιστικά NB Lighting υπόκεινται σε συγκεκριμένες διαδικασίες και ελέγχους όπως περιγράφονται στο Εγχειρίδιο Διαχείρισης Ποιότητας της Εταιρείας και πληρούν τις απαιτήσεις του Προτύπου ISO 9001. Η Πολιτική Ποιότητας της NB Lighting σκοπεύει στην πλήρη ικανοποίηση των απαιτήσεων ποιότητας, των αναγκών και των προσδοκιών των πελατών της και η πιστοποίηση της Πολιτικής αυτής κατά ISO 9001 μας χαρακτηρίζει ως έναν αξιόπιστο συνεργάτη.

CUSTOMISED LIGHTING SOLUTIONS

As a producer, NB LIGHTING offers various special constructions upon the models of the factory to serve all constructing and architectural requests.

There is a big variety of colourings available for aluminium and brass models, where polyester powder coating UV resistant is applied. In plastic models there is also a wide variety of colourings for minimum 500 pieces, while white, black, grey, golden antique, silver antique and copper antique are stock colours. Stock colours for globes are white, smoked and transparent. Brass products can be polished with appropriate varnishes offering a different texture to the material. They are also available in material finishes of chrome, nickel mat, copper, oxyde brushed and oxydization.

Products can be differentiated in terms of length of poles, extra or no cable gland, or decorative screws in bulkheads and wall sconces, hole opening in both sides of the lighting in order to have entry and exit of the cable. Also, the lamp holder can be replaced in order to leave space for a bigger lamp or a second lamp holder can be adjusted for safety lighting. In certain models different lamp holders can be selected (G9, G4-12V, GX53), according to the lamp and the volt that need to be applied by the customer. Built-in LED can be installed in the majority of our models.

For any further information or any question regarding customised products do not hesitate to contact our technical department and we will direct you to create your own special model.

ΕΙΔΙΚΕΣ ΚΑΤΑΣΚΕΥΕΣ ΦΩΤΙΣΜΟΥ

Ως εταιρεία παραγωγός, η NB LIGHTING παρέχει ποικίλες ειδικές κατασκευές πάνω στα μοντέλα παραγωγής, εξυπηρετώντας τις κατασκευαστικές και σχεδιαστικές ιδιαιτερότητες του κάθε έργου.

Δίνεται η δυνατότητα βαφής σε όλα τα προϊόντα από αλουμίνιο και ορείχαλκο, ενώ οι αποχρώσεις καλύπτουν κάθε χρωματική επιλογή. Η βαφή γίνεται ηλεκτροστατικά με πολυεστερικές πούδρες υψηλής αντοχής.

Στοκ αποχρώσεις στα πλαστικά είδη είναι το λευκό, το μαύρο, το γκρι, το αντικέ χρυσό, το αντικέ ασημί και το αντικέ χαλκού, ενώ για παραγγελία πάνω από 500 τεμαχία είναι δυνατή η επιλογή και άλλου χρώματος. Οι μπάλες διατίθενται σε λευκό, φιμέ και διάφανο χρώμα.

Στα ορειχάλκινα είδη είναι δυνατή η επίστρωση του φωτιστικού με βερνίκι. Διατίθενται επίσης σε φινιρίσμα χρώμιο, σε νίκελ ματ, σε χαλκό, σε οξυντέ βουρτσισμένο και σε οξειδωση.

Σε όλα μας τα προϊόντα είναι δυνατό να γίνουν αλλαγές σχετικά με: το μήκος στις κολώνες, την εφαρμογή διπλού ή καθόλου στυπιοθλήπτη, την προσθήκη πεταλούδων αντί για βίδες σε χελώνες και απλίες από ορείχαλκο, το άνοιγμα τρύπας και στις δύο πλευρές του φωτιστικού για να υπάρχει είσοδος και έξοδος του καλωδίου. Επίσης, είναι δυνατή η αναπροσαρμογή της θέσης του ντουί ώστε να δημιουργηθεί μεγαλύτερος χώρος για τον λαμπτήρα ή και προσθήκη δεύτερου ντουί για χρήση λάμπας ασφαλείας. Παράλληλα, σε ορισμένα φωτιστικά είναι δυνατή η τοποθέτηση διαφορετικών τύπων ντουί (G9, G4-12V, GX53) ανάλογα με τη λάμπα και τα volt που θέλει να εφαρμόσει ο πελάτης. Τέλος, στα περισσότερα μοντέλα είναι δυνατή η προσαρμογή πλακέτας φωτισμού LED.

Για οποιαδήποτε ερώτηση σχετικά με κάποια ειδική κατασκευή μη διστάσετε να επικοινωνήσετε με τους τεχνικούς μας, οι οποίοι θα σας καθοδηγήσουν να δημιουργήσετε την ειδική κατασκευή φωτισμού που επιθυμείτε.

Colour Finish / Χρωματολόγιο

- Colour finishes refer only to aluminium and brass lighting fixtures.
Το χρωματολόγιο αφορά μόνο τα φωτιστικά από αλουμίνιο και ορείχαλκο.
- All colours are made by electrostatic paint using polyester powder coating.
Τα χρώματα είναι ηλεκτροστατική βαφή σε φούρνο πολυμερισμού πούδρας.
Η πούδρα είναι τύπου polyester.

Πλαστικά

AXO

AXO series is a new outdoor plastic design with built-in LED, ideal for lighting paths, stairs and peripheral courtyards. Plain, exceptionally thin and therefore easy-to-fit design, matches all architectures and styles. Extremely economical LED consumption for long hours use. Comes out in two types: out open with opal diffuser and recessed lighting source for directional lighting output. Ideal for sea-side use due to its anti-corrosion high quality plastic materials manufacture.

- > PC materials on housing and cover
- > Clear polycarbonate diffuser
- > With thermoplastic gasket
- > UV resistant materials
- > Anti-corrosion high quality plastic materials, ideal for sea side use
- > IP 44 ⚠
- > 220 - 240V / ~50 Hz
- > Class II ☐

ARIA & ARIA mini

ARIA and ARIA mini series are ideal for illuminating exterior garden areas, paths, and stairs. Plastic is always an easy-going and modern material, especially the trend version in grey colour. ARIA bulkheads are available with frame, guard or cover and can also be differentiated by the three-option diffuser available: clear glass, opal glass or opal polycarbonate. The vandalproof polycarbonate diffuser is the preferable choice for open access areas.

DELTA

As a classical wall sconce design, DELTA matches contemporary, as well as traditional architecture. Finish options in black, white and grey will satisfy every building colour. DELTA is suitable for illuminating exterior areas of buildings: above doors and doorsteps, windows and against walls, balconies and terraces. Shuttered cover design achieves a distinctive illuminating effect, yet offering adequate lighting through the open diffuser part: the right choice to light and decorate. **New , Art. 52 D available also with clear PC diffuser.**

PRISMA

Prisma reflects simplicity in a modern design, which is suitable for various types of architecture. This series comes out in wall sconce and garden version. Garden fixture is available in one and two head options, to best fit the lighting needs of the venue; ideal for pathway illumination. Three standard colours are available: black, white and grey. **New model Art. 34D available also with clear PC diffuser.**

KARRE

KARRE is a classic lantern design featuring mostly traditional architecture. Offers high lighting output due to the clear glass diffuser and E27 max.60W lamp capability. Strong plus for this model is the reversible feature of the same unit fixture. Manufactured by anti-corrosion high quality plastic materials, KARRE series is also recommended for sea-side use.

UMBRA

Umbra presents a complete lantern series for wall, pendant and garden application. Plastic material combined with a polycarbonate diffuser is a secure choice for exterior illumination: maximum resistance against difficult weather conditions. Light through the prismatic diffuser creates an atmospheric illumination effect.

PLATEAU & PLANUS

Plateau is a classic design fitting easily incorporated in various architectures. Three-option colours: black, white and grey.

Planus is a simple-line ceiling lamp available in opal or clear prismatic polycarbonate diffuser. Ideal for corridors, basements or warehouse illumination. Being extremely lightweighted, Planus can be easily installed. Vandalproof polycarbonate diffuser makes it also suitable for open access areas.

TETRA

As an alternative to round shape series, Tetra presents the square version for small fixtures offering distinctive illumination. Each one of the three cover types give out a different lighting effect; especially art. 122AL offers downward directional lighting, ideal for pathway illumination. Chosen for residential or architectural use, Tetra will offer a modern perspective at the site. Tetra models are available with G9, G4 -12V and economy lamp GX53 lampholders. Extended colour options give also more alternatives to lighting decoration.

Brass

Ορειχάλκινα

GEA

Gea series includes oval die-cast brass bulkheads in different sizes and styles, wattage and diffusers. Best fitted in garden areas and stairs, bulkheads offer adequate yet discrete illumination to the outdoor area. Gea series in brass are highly recommended for areas with difficult environmental conditions, especially near the sea.

RONDO

The biggest round-type fixtures are included in Rondo series. The small model is available in two designs: one with guard and second with cover; covered version is a model of exquisite design providing a beautiful lighting effect. Rondo models offer rich illumination result due to the big size and round figure.

TETRA

As an alternative to round shape series, Tetra presents the square version for small fixtures offering distinctive illumination. Each one of the three cover types give out a different lighting effect; especially art. 122 offers downward directional lighting, ideal for pathway illumination. As a residential or architectural option, Tetra will offer a modern perspective at the site. Tetra models are available with G9, G4-12V and economy lamp GX53 lampholders.

LAMPADA

Lampada series comprise of wall, garden and pendant brass fixtures, covering all lighting needs. Discover the traditional design in lantern type models 127 and 127 F, while a minimal aspect reflected on models 71A , 71 AF And 78 F. New Art.171 presents a different arm design in the Lampada lantern series. Lampada models vary in size as well as glass diffuser type: clear or opal.

Globes

Μπάλες

GLOBES AND BASES

Acrylic globes come out in five standard dimensions: Ø 200mm, Ø 250mm, Ø 300mm, Ø 400mm, Ø 500mm and three colours: opal, smoked and clear. Globe represents an easy-going fixture that has various applications: on posts, at entrance gates and against walls. Globes are the most common fixture used in urban illumination. Bases come out in plastic and aluminium materials both with porcelain lampholder. Plastic, as well as aluminium bases have various applications and are used on posts, applied in garden, wall and pendant fixtures.

TABLE & GARDEN GLOBES / SHAPES

A new idea on how to use globes and dado shapes in two different applications: table and garden. Use the table version of a globe/dado to lighten your bed side. They are a perfect match with pendant globes, the ideal lighting set for bedrooms. Safer than all other materials, plastic table globe/dado can be easily placed in childrens' room.

Garden globe/dado version is ideal for both indoor-outdoor use. Create an eye-catching lighting effect in your open air areas; lighten your parties and gatherings easily. Removable garden globes/dado will impress your visitors!

Both table and garden globes/dado offer a variety of colours -opal, smoked, transparent, yellow, rose-, sizes and wattage.
